Instructions

There are nine games in the set. Cut along the lines on the word cards to create decks. Place each deck in a small vinyl envelope.

Three games (gray) each present eight words. Most of these are high frequency words but also contain other words that have the same beginning letter combinations (Th, Wh, Wa).

Six games (cream) each present eight different prepositions. These are numbered according to level of difficulty as Prep(ositions)1, Prep2, Prep3, Prep4, Prep5, and Prep6.

Each game consists of sixteen cards. Each word appears twice. Children lay the cards on a table with the word sides down. The first child picks up a word and places it back down on the table. He then picks up a second card. If that card contains the same word as the first one, the child may pick up both of the cards, pronounce the word, and lay them down in front of him. He then picks up another two cards to see if there is a match. The first player continues until no match is found. If the cards don't match, his turn is over and a second player repeats the process. Play continues until all words have been picked off the table.

Teachers may change the rules in any way that serves their own purposes.

Memory Games

(9 games)

Print games in landscape orientation
on fronts and backs
of 110 lb. card stock.

Be careful to
match words with
deck identification.
